kartiksomwanshi60@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented SQL Developer with a foundation in Oracle SQL, PostgreSQL, PL/SQL, database design, and data analysis. Skilled in developing stored procedures, views, triggers, and analytical queries to support backend application logic and reporting. Familiar with SDLC, data validation, dashboard development, and troubleshooting data bottlenecks while maintaining data integrity.

EDUCATION

BBA — Computer Applications 2022–2025
SM Joshi College

HSC (Class XII) 2022
SM Joshi College

SSC (Class X) 2020
Sane Guruji Primary & Secondary School

PROJECT

Warehouse Management System (WMS)
Personal Project · Oracle SQL Database System

- Designed and managed a SQL database for supplier, inventory, and order data.
- Developed analytical queries using window functions (RANK, LAG/LEAD), correlated subqueries, multi-join analysis, and CASE-based customer segmentation.
- Performed data cleaning and transformation in SQL for sales, inventory, and behaviour analysis.
- Created interactive Power BI dashboards to visualize stock levels, order status, and warehouse performance.

TECHNICAL SKILLS

Core SQL
Oracle SQL · PL/SQL · SQL Developer · DDL/DML · CTE

Advanced SQL
Window Functions · Joins · Subqueries · Aggregate Functions · CASE Logic

Database Design
Schema Design · Normalization · PK/FK Constraints · Indexing · Data Modelling

Automation
Stored Procedures · Functions · Packages · Triggers · Exception Handling

ETL & BI
ETL Pipeline Design · Data Validation · Power BI · DAX · Advanced Excel · Power Query

Programming
Python (Pandas, NumPy) · Data Cleaning · Transformation & Reporting Automation

CERTIFICATIONS

- **Data Analyst Certification** — SQL, PL/SQL, Python, Power BI, Advanced Excel · KDN Infotech Pvt. Ltd.
- **Data Analytics Virtual Experience Program** — Deloitte
